St Agnes Primary School Records Management Policy

The School recognises that by efficiently managing its records, it will be able to comply with its legal and regulatory obligations and to contribute to the effective overall management of the institution. Records provide evidence for protecting the legal rights and interests of the school, and provide evidence for demonstrating performance and accountability. This document provides the policy framework through which this effective management can be achieved and audited.

It covers:

- Scope
- Responsibilities
- Relationships with existing policies

1. Scope of the policy

- 1.1 This policy applies to all records created, received or maintained by staff of the school in the course of carrying out its functions.
- 1.2 Records are defined as all those documents which facilitate the business carried out by the school and which are thereafter retained (for a set period) to provide evidence of its transactions or activities. These records may be created, received or maintained in hard copy or electronically.
- 1.3 A small percentage of the school's records will be selected for permanent preservation as part of the institution's archives and for historical research. This should be done in liaison with the County Archives Service.

2. Responsibilities

- 2.1 The school has a corporate responsibility to maintain its records and record keeping systems in accordance with the regulatory environment. The person with overall responsibility for this policy is the Head of the School.
- 2.2 The person responsible for records management in the school will give guidance for good records management practice and will promote compliance with this policy so that information will be retrieved easily, appropriately and in a timely way. They will also monitor compliance with this policy by surveying at least annually to check if records are stored securely and can be accessed appropriately.
- 2.3 Individual staff and employees must ensure that records for which they are responsible are accurate, and are maintained and disposed of in accordance with the school's records management guidelines.

3. Relationship with existing policies

This policy has been drawn up within the context of:

- Freedom of Information policy
- Data Protection policy
- and with other legislation or regulations (including audit, equal opportunities and ethics) affecting the school.

Pupil Records

Managing Pupil Records

The pupil record is seen as the core record charting an individual pupil's progress through the Education System¹. The pupil record will accompany the pupil to every school they attend and will contain information that is accurate, objective and easy to access. These guidelines are based on the assumption that the pupil record is a principal record and that all information relating to the pupil will be found in the file (although it may spread across more than one file cover).

1. Recording information

Pupils have a right of access to their educational record and so do their parents under the Education (Pupil Information) (England) Regulations 2005. Under the General Data Protection Register 2018 a pupil or their nominated representative has a right to see information held about them. This right exists until the point that the file is destroyed. Therefore, it is important to remember that all information should be accurately recorded, objective in nature and expressed in a professional manner.

2. Primary School records

2a. Opening a file

These guidelines apply to information created and stored in both physical and electronic format.

The pupil record starts its life when a file is opened for each new pupil as they begin school. This is the file which will follow the pupil for the rest of his/her school career. The following information should appear in the paper file:

- Surname
- Forename
- DOB
- Unique Pupil Number²

Inside the front cover the following information will be easily accessible:

- The name of the pupil's doctor
- Emergency contact details
- Gender
- Preferred name
- Position in family
- Ethnic origin³
- Language of home (if other than English)⁴
- Religion⁵
- Any allergies or other medical conditions that it is important to be aware of⁶
- Names of adults who hold parental responsibility with home address and telephone number (and any additional relevant carers and their relationship to the child)
- Name of the school, admission number and the date of admission and the date of leaving.
- Any other agency involvement e.g. speech and language therapist, paediatrician

2b. Items which will be included on the pupil record

- If the pupil has attended an early years setting, then the record of transfer should be included on the pupil file
- Admission form (application form)
- Privacy Notice
- Photography Consents
- Years Record
- Annual Written Report to Parents
- National Curriculum and Religious Education Locally Agreed Syllabus Record Sheets
- Any information relating to a major incident involving the child (either an accident or

- other incident)
- Any reports written about the child
- Any information about a statement and support offered in relation to the statement
- Any relevant medical information (should be stored in the file in a sealed envelope clearly marked as such)
- Child protection reports/disclosures (should be stored in the file in a sealed envelope clearly marked as such)
- Any information relating to exclusions (fixed or permanent)
- Any correspondence with parents or outside agencies relating to major issues
- Details of any complaints made by the parents or the pupil

2c. Transferring the pupil record to the Secondary School

The pupil record should not be weeded before transfer to the secondary school unless any records with a short retention period have been placed in the file. It is important to remember that the information which may seem unnecessary to the person weeding the file may be a vital piece of information required at a later stage.

Primary schools do not need to keep copies of any records in the pupil record except if there is an ongoing legal action when the pupil leaves the school. Custody of and responsibility for the records passes to the school the pupil transfers to.

Files will not be sent by post unless absolutely necessary. If files are sent by post, they will be sent by registered post with an accompanying list of the files. The secondary school will sign a copy of the list to say that they have received the files and return that to the primary school. Where appropriate, records can be delivered by hand with signed confirmation for tracking and auditing purposes.

Electronic documents that relate to the pupil file will be transferred, or, if duplicated in a master paper file, destroyed.

3. Responsibility for the pupil record once the pupil leaves the school

The school which the pupil attended until statutory school leaving age⁷ is responsible for retaining the pupil record until the pupil reaches the age of 25 years. [See the retention schedule for further information].

4. Safe destruction of the pupil record

The pupil record will be disposed of in accordance with the safe disposal of records guidelines.

5. Transfer of a pupil record outside the EU area

If we are requested to transfer a pupil file outside the EU area because a pupil has moved into that area, we will contact the Local Authority for further advice.

6. Storage of pupil records

All pupil records will be kept securely at all times. Paper records, for example, will be kept in lockable storage areas with restricted access, and the contents will be secure within the file. Equally, electronic records will have appropriate security.

Access arrangements for pupil records will ensure that confidentiality is maintained whilst equally enabling information to be shared lawfully and appropriately, and to be accessible for those authorised to see it.

The following records will be stored separately to the pupil record as they are subject to shorter retention periods and if they are placed on the file then it will involve a lot of unnecessary weeding of the files before they are transferred on to another school.

- Absence notes
- Parental consent forms for trips/outings [in the event of a major incident all the parental consent forms should be retained with the incident report not in the pupil record]
- Correspondence with parents about minor issues
- Accident forms (these should be stored separately and retained on the school premises until their statutory retention period is reached. A copy could be placed on the pupil file in the event of a major incident)

Good Practice for Managing E-mail

1. Introduction

These guidelines are intended to assist school staff to manage their e-mail in the most effective way, and will be used in conjunction with the school's policies on the use of ICT.

2. Eight Things You Need to Know About E-mail

E-mail has replaced telephone calls and memos

As communicating by e-mail is quick and easy, many people have replaced telephone conversations and memos with e-mail discussions. However, the language in which e-mail is written is often less formal and more open to misinterpretation than a written memo or a formal letter. E-mail will be laid out and formulated to the schools standards for written communications.

E-mail is not always a secure medium to send confidential information

The consequences of an e-mail containing sensitive information being sent to an unauthorised person could be a civil penalty of up to £500,000 from the Information Commissioner or it could end up on the front page of a newspaper. Confidential or sensitive information will only be sent by a secure encrypted e-mail system. Pupils names or personal information will never be put as the subject of an email.

E-mail is disclosable under the access to information regimes

All school e-mail is disclosable under Freedom of Information and Data Protection legislation. Staff are aware that anything you write in an email could potentially be made public.

E-mail is not necessarily deleted immediately

E-mails can remain in a system for a period of time after they have been deleted. These copies could be disclosable under the Freedom of Information Act 2000 or under the Data Protection Act 1998.

E-mail can form a contractual obligation

Agreements entered into by e-mail can form a contract. Staff are aware of this if they enter into an agreement with anyone, especially external contractors. Individual members of staff should not enter into agreements either with other members of staff internally or with external contractors unless they are authorised to do so.

E-mail systems are commonly used to store information which should be stored somewhere else

All attachments in e-mail are saved into any appropriate electronic filing system or printed out and placed on paper files.

Employers must be careful how they monitor e-mail

Any employer has a right to monitor the use of e-mail provided it has informed members of staff that it may do so. Monitoring the content of e-mail messages is a more sensitive matter and if this is the intention staff will be informed

Creating and sending e-mail

Here are some steps to consider when sending e-mail.

Do I need to send this e-mail?

Ask yourself whether this transaction needs to be done by e-mail? It may be that it is more appropriate to use the telephone or to check with someone face to face.

To whom do I need to send this e-mail?

Limit recipients to the people who really need to receive the e-mail. Avoid the use of global or group address lists unless it is absolutely necessary. Never send on chain e-mails.

When sending emails containing personal or sensitive data always respond to an authorised, approved address. All emails that are used for official business must be sent from an official business domain address.

Use a consistent method of defining a subject line

Having a clearly defined subject line helps the recipient to sort the e-mail on receipt.

A clear subject line also assists in filing all e-mails relating to individual projects in one place. For example, the subject line might be the name of the policy, or the file reference number.

Ensure that the e-mail is clearly written

- Do not use text language or informal language in school e-mails.
- Always sign off with a name (and contact details).
- Make sure that you use plain English and ensure that you have made it clear how you need the recipient to respond.
- Never write a whole e-mail in capital letters. This can be interpreted as shouting.
- Always spell check an e-mail before you send it. Do not use the urgent flag unless it is absolutely necessary, recipients will not respond to the urgent flag if they perceive that you use it routinely.
- If possible, try to stick to one subject for the content of each e-mail, as it will be easier to categorise it later if you need to keep the e-mail.

Sending attachments

Sending large attachments (e.g. graphics or presentations) to a sizeable circulation list can cause resource problems on your network. Where possible put the attachment in an appropriate area on a shared drive and send the link round to the members of staff who need to access it.

Disclaimers

Adding a disclaimer to an e-mail mitigates risk, such as sending information to the wrong recipient, or helps to clarify the school's position in relation to the information being e-mailed. Typically, they cover the fact that information may be confidential, the intention of being solely used by the intended recipient, and any views or opinions of the sender are not necessarily those of the school.

Managing received e-mails

This section contains some hints and tips about how to manage incoming e-mails.

a) Manage interruptions

Incoming e-mail can be an irritating distraction. The following tips can help manage the interruptions.

- Turn off any alert that informs you e-mail has been received
- Plan times to check e-mail into the day (using an out of office message to tell senders when you will be looking at your e-mail can assist with this).

b) Use rules and alerts

- By using rules and alerts members of staff can manage their inbox into theme-based folders. For example:
- E-mails relating to a specific subject or project can be diverted to a named project folder
- E-mails from individuals can be diverted to a specific folder
- Warn senders that you will assume that if you are copied in to an e-mail, the message is for information only and requires no response from you.

- Internally, use a list of defined words to indicate in the subject line what is expected of recipients (for example: "For Action:", "FYI:", etc.)
- Use electronic calendars to invite people to meetings rather than sending e-mails asking them to attend

c) Using an out of office message

If you check your e-mail at stated periods during the day you can use an automated response to incoming e-mail which tells the recipient when they might expect a reply. A sample message might read as follows:

Thank you for your e-mail. I will be checking my e-mail at three times today, 8:30am, 1:30pm and 3:30pm. If you require an immediate response to your e-mail please telephone me on 01617705970

This gives the sender the option to contact you by phone if they need an immediate response.

3. Filing e-mail

Attachments only

Where the main purpose of the e-mail is to transfer documents, then the documents should be saved into the appropriate place in an electronic filing system or printed out and added to a paper file. The e-mail can then be deleted.

E-mail text and attachments

Where the text of the e-mail adds to the context or value of the attached documents it may be necessary to keep the whole e-mail. The best way to do this and retain information which makes up the audit trail, is to save the e-mail in .msg format. This can be done either by clicking and dragging the e-mail into the appropriate folder or by using the "save as" function to save the e-mail in an electronic filing system.

If the e-mail needs to be re-sent it will automatically open into First Class.

Where appropriate the e-mail and the attachments can be printed out to be stored on a paper file, however, a printout does not capture all the audit information which storing the e-mail in .msg format will.

E-mail text only

If the text in the body of the e-mail requires filing, the same method can be used as that outlined above. This will retain information for audit trail purposes.

Alternatively the e-mail can be saved in .html or .txt format. This will save all the text in the e-mail and a limited amount of the audit information. The e-mail cannot be re-sent if it is saved in this format.

The technical details about how to undertake all of these functions are available in application Help functions.

How long to keep e-mails?

E-mail is primarily a communications tool, and e-mail applications are not designed for keeping e-mail as a record in a storage area meeting records management storage standards.

E-mail that needs to be kept should be identified by content; for example, does it form part of a pupil record? Is it part of a contract? The retention for keeping these e-mails will then correspond with the classes of records according to content in the retention schedule for schools found elsewhere in the Records Management Tool Kit for Schools. These e-mails may need to be saved into any appropriate electronic filing system or printed out and placed on paper files.

Information Security and Business Continuity

Information Security and Business Continuity are both important activities in ensuring good information management and are vital for compliance with the GDPR 2018.

1. Digital Information

In order to mitigate against the loss of electronic information St Agnes will:

a. Operate an effective back-up system

Undertake regular backups of all information held electronically to enable restoration of the data in the event of an environmental or data corruption incident.

The back-up will be stored in a fireproof safe which is located in another part of the premises.

b. Control the way data is stored within the school

Personal information will not be stored on the hard drive of any laptop or PC unless the device is running encryption software. Staff have been advised not to hold personal information about students or other staff on mobile storage devices including but not limited to memory sticks, phones, iPads, portable hard drives or even on CD.

c. Manage the location of server equipment

We ensure that the server environment is managed to prevent access by unauthorised people.

2. Hard Copy Information and Records

Records which are not stored on the school's servers are at greater risk of damage by fire and flood as well as risk of loss and of unauthorised access.

a. Fire and flood

Where possible vital records will not be left on open shelves or on desks as these records will almost certainly be completely destroyed in the event of fire and will be seriously damaged (possibly beyond repair) in the event of a flood. Physical records will not be stored on the floor.

b. Unauthorised access, theft or loss

Staff will not take personal data on staff or students out of the school unless there is no other alternative. Records held within the school are in lockable cabinets. All archive or records storage areas are lockable and have restricted access.

c. Clear Desk Policy

At St Agnes a clear desk policy is in place which involves the removal of the physical records which contain sensitive personal information to a cupboard or drawer (lockable where appropriate). It does not mean that the desk has to be cleared of all its contents.

3. Disclosure

Staff have been made aware of the importance of ensuring that personal information is only disclosed to people who are entitled to receive it.

4. Responding to Incidents

In the event of an incident involving the loss of information or records the school will have an incident response team to manage the situation. Schools should consider assigning a specific member of staff to deal with press/media enquiries.

a. Major Data Loss/Information Security Breach

In the case of a breach or loss of information the Information Commissioner's Office will be notified of the incident within 72 hours. This is in line with the GDPR 2018 regulations. For more information see the Data protection policy.

Safe disposal of records which have reached the end of their administrative life

NB: Please be aware that this guidance applies to all types of record, whether they are in paper or digital format.

1. Disposal of records that have reached the end of the minimum retention period allocated

Refer to the Retention Guidelines at the end of the policy

2. Safe destruction of records

All records containing personal information, or sensitive policy information will be made either unreadable or unreconstructable.

- Paper records are be shredded using a cross-cutting shredder
- CDs / DVDs / Floppy Disks are be cut into pieces
- Audio / Video Tapes and Fax Rolls are dismantled and shredded
- Hard Disks are be dismantled and sanded

When records are destroyed, all records are recorded and authorised to be destroyed by a Senior Manager and the destruction recorded. Records are shredded as soon as the record has been documented as being destroyed.

Retention Guidelines

1. The purpose of the retention guidelines

Under the Freedom of Information Act 2000, schools are required to maintain a retention schedule listing the record series which the school creates in the course of its business. The retention schedule lays down the length of time which the record needs to be retained and the action which should be taken when it is of no further administrative use. The retention schedule lays down the basis for normal processing under both the Data Protection Act 1998 and the Freedom of Information Act 2000.

Members of staff are expected to manage their current record keeping systems using the retention schedule and to take account of the different kinds of retention periods when they are creating new record keeping systems.

The retention schedule refers to record series regardless of the media in which they are stored.

2. Maintaining and amending the retention schedule

Where appropriate the retention schedule will be reviewed and amended to include any new record series created and remove any obsolete record series.

This retention schedule contains recommended retention periods for the different record series created and maintained in school.

Some of the retention periods are governed by statute. Others are guidelines following best practice. These retention periods are compliant with the requirements of the Data Protection Act 1998 and the Freedom of Information Act 2000.

Managing record series using these retention guidelines will be deemed to be "normal processing"

under the legislation mentioned above. If record series are to be kept for longer or shorter periods than laid out in this document the reasons for this will be documented.

This schedule will be reviewed on an annual basis.
Please see the retention guidelines below.

Management of the School

This section contains retention periods connected to the general management of the school. This covers the work of the Governing Body, the Headteacher and the senior management team, the admissions process and operational administration.

1.1 Governing Body					
	Basic file description	Data Prot Issues	Statutory Provisions	Retention Period [Operational]	Action at the end of the administrative life of the record
1.1.1	Agendas for Governing Body meetings	There may be data protection issues if the meeting is dealing with confidential issues relating to staff		One copy should be retained with the master set of minutes. All other copies can be disposed of	SECURE DISPOSAL ¹
1.1.2	Minutes of Governing Body meetings	There may be data protection issues if the meeting is dealing with confidential issues relating to staff			
	Principal Set (signed)			PERMANENT	If the school is unable to store these then they should be offered to the County Archives Service
	Inspection Copies ²			Date of meeting + 3 years	If these minutes contain any sensitive, personal information they must be shredded.
1.1.3	Reports presented to the Governing Body	There may be data protection issues if the report deals with confidential issues relating to staff		Reports should be kept for a minimum of 6 years. However, if the minutes refer directly to individual reports then the reports should be kept permanently	SECURE DISPOSAL or retain with the signed set of the minutes

1.1.4	Meeting papers relating to the annual parents' meeting held under section 33 of the Education Act 2002	No	Education Act 2002, Section 33	Date of the meeting + a minimum of 6 years	SECURE DISPOSAL

	Primary			Retain whilst the child remains at the primary school	<p>The file should follow the pupil when he/she leaves the primary school. This will include:</p> <ul style="list-style-type: none"> • to another primary school • to a secondary school • to a pupil referral unit • If the pupil dies whilst at primary school the file should be returned to the Local Authority to be retained for the statutory retention period. <p>If the pupil transfers to an independent school, transfers to home schooling or leaves the country the file should be returned to the Local Authority to be retained for the statutory retention period. Primary Schools do not ordinarily have sufficient storage space to store records for pupils who have not transferred in the normal way. It makes more sense to transfer the record to the Local Authority as it is more likely that the pupil will request the record from the Local Authority</p>
5.1.2	Examination Results – Pupil Copies	Yes			
	Public			This information should be added to the pupil file	All uncollected certificates should be returned to the examination board.
	Internal			This information should be added to the pupil file
